Separate Financial Administration

The organization proposes a separately designated bank account in Geneva or another legally appropriate arrangement.

The actual account location and structure will depend on incorporation, banking approval and applicable law.

Governance and Authorization

Fund expenditure should require documented review, defined eligibility criteria, financial approval and appropriate oversight.

The proposed Founder Chairman may have final internal approval over specified allocations, subject to the governing documents and mandatory law.

Financial Records

Contributions, allocations, payments and balances should be recorded distinctly from ordinary operating transactions.

Conflicts of Interest

Any request involving a director, founder, employee or related party should receive enhanced independent review.

No Automatic Entitlement

Membership does not create a guaranteed right to reserve assistance.

All support is discretionary and depends on the approved rules and available funds.

Donations and Charitable Status

The proposed fund should not solicit tax-deductible donations or claim charitable status without the necessary legal basis and authorizations.

Our Objective

To establish a financially responsible reserve that supports institutional continuity and carefully evaluated humanitarian needs.
